

WHAT DO ALMOST ALL OF THE TOP 50 POOL BUILDERS HAVE IN COMMON?

THEY ALL USE...

ARTISTIC PAVER

♦ **No more cracked decks...**

Regular poured concrete decks crack. Artistic Pavers flex between pavers, avoiding cracks. No more crack deck warranty calls...

♦ **Smooth surface...**

The surfaces of our pavers are designed for pool decks and patios. They are comfortable to walk on, not too slippery and not too rough.

♦ **Approved for cold climates...**

Our product passed the rigorous 50 cycle freeze-thaw test with no measurable weight loss or cracking.

♦ **Cool on the feet...**

Most of our pavers are light colored and typically much cooler than most other deck surfaces.

♦ **Beveled edges...**

Our Steplock® pavers are designed for commercial and residential pedestrian traffic. Calibrating and beveling the border of our pavers helps prevent tripping hazards.

♦ **Easy maintenance...**

We manufacture our pavers to require very little maintenance. They are resistant to mold, mildew, algae and salt corrosion.

♦ **Quick and easy delivery...**

Carrying a large inventory, we have most of our standard pavers ready for delivery. Artistic Pavers' two factories are strategically located providing quick delivery nationwide.
