ROADLOCK®

INTERLOCKING SAND-SET PAVERS FOR DRIVEWAYS

Golden Brown
Pattern: 8"x12" Herringbone

Expect beauty, get quality.

Make a "Welcome to My Home" statement by choosing Artistic Paver's Roadlock pavers. Roadlock® pavers have a stunning look with exposed shells on a smooth surface adding beauty and aesthetics to any project. Our high-quality driveway pavers will redefine your concept on how to keep your driveway looking its best. Built with the latest technology, they are durable and require minimal maintenance. Choose from a classic pattern or create your own. Mix and match colors to express your style and preferences. The end result will be an elegant entrance, while also enhancing the value of your property.

More than

Here is why Architects, Landscape Designers and professional installers are using Artistic Roadlock® pavers:

- The top portion of Roadlock® pavers are polished to eliminate the weak thin "cream-coat" topping found in standard block-type pavers. Unlike standard porous block-type pavers, this ensures strength and a consistent "hard to wear" top surface.
- Our interlocking pavers are sand jointed to allow movement. Poured or stamped concrete driveways often crack because they don't allow for movement.
- Our high-quality driveway pavers passed the rigorous 50 freeze-thaw cycles test. That means they can be used in the harshest climates conditions from the extreme cold temperatures to extreme hot temperatures.
- All our pavers are built with the "Color-through" process, meaning the color is not only on the surface, but through at least 1" of the paver. This process makes a better paver and reduces maintenance and costs.

The ocean right at your front steps...

Roadlock® Atlantic Series incorporates the beauty of seashells creating a stunning paver that is nearly indestructible.

Our Atlantic Series' pavers are polished to expose the seashells, giving each paver a rich and unique look.

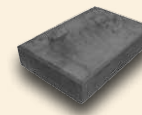

The honed finish surface is non-porous and easy to maintain.

Roadlock® Driveway Pavers are offered in an array of colors that can be mixed and matched in different combinations. With a thickness of 2-³/₈" in three interlocking sizes, 8"x8", 8"x12" and 12"x12", it's really easy to create a unique look for your project. Manufactured with the latest technology, Roadlock® Driveway Pavers are consistent in size and extremely durable, adding value to any project.

Notes:

- Natural aggregates are embedded at different distances from the surface of the material, and then polished. Therefore, a small percentage of the aggregates are expected to come loose from the surface and edges of the tile. This occurrence will diminish over a short span of time and in no way will effect the strength of the product.
- Because of color dye and natural raw materials inconsistencies, products will have color shade and texture variations.
- Colors on printed material or published on our website may vary from actual paver. Before making a decision, we recommend verifying your selection at your local Artistic Paver retailer.
