SERIES  
STEPLOCK®

STYLE  
**GRANITELOCK®**

The durability of granite in a paver.

Natural granite has been used for thousands of years in both interior and exterior applications due to its beauty and durability. However, granite often costs significantly more than man-made materials in most projects and the high price reduces its popularity.

Artistic Paver's Granitelock® is an excellent alternative that has the same beauty of the natural stone in a very durable and strong paver.

The Granitelock® collection is part of our Steplock® Line, exclusively designed for pedestrian applications.

## COLOR SELECTION - PAVERS AND COPING

WHITE PEARL

PLATINUM GRAY

## APPLICATIONS

 Designed for use in pedestrian applications including patios, swimming pool decks, walkways, stepping stones as well as architectural and decorative uses such as raised walls, fountains, benches and planters.

## CUSTOM COLORS

Custom colors available typically for minimum quantities of 10,000 square feet.

### NOTES

1. Pavers should be installed from several pallets at a time to maintain the best color consistency.
2. Due to processes required to manufacture, package, deliver, unpack, install and compact the products, small chipping can be expected.

3. The product images in our catalogs, brochures, or shown on monitor screens give a general indication of color for a preliminary selection. We recommend you also view current product samples and look at actual finished projects before making your final decision.
